

What is Comp-Up?

COMP-UP is a European Erasmus+ Project that aims to update the competences of Adult Education Professionals (AEP) who support low-qualified adult learners in the process of improving literacy, numeracy and digital skills. Moreover, COMP-UP offers possibilities to AEPs for keeping up the motivation of this target group by gathering already successfully implemented projects in the field.

What are we planning to realise in the two project years?

To respond to the needs identified and highlighted by the PIAAC Survey of Adult Skills, which shows that 70 million Europeans struggle with basic reading and writing, calculation and using digital tools in everyday life...

...COMP-UP will develop its results (all available in Italian, German, Polish, Romanian, Hungarian, Spanish, Swedish) as follows:

- **COMP-UP Tools Collection**, will be a collection of already developed European and national projects, tools and methodologies in the motivation and skills assessment field
- **COMP-UP Training Curriculum** will supply competences to AEPs to develop effective outreach, guidance and motivation strategies for low-qualified adult learners and to use skill assessment tools in the literacy, numeracy and digital area.
- **COMP-UP Website/Webinar Library** will contain all the developed materials and findings
- **COMP-UP Motivation Toolkit**, will be a practical resource for AEPs to implement Motivation workshops to low-qualified adult learners, with step-by-step description on how to carry out the activities.

All the developed COMP-UP materials which primarily are targeted to AEPs working with low qualified adults (Tool Collection, Training Curriculum, Webinar Library, Motivational Toolkit) will be all available on the project website.

I am an Adult Education Professional where can I find more information?

You can find out more about our activities and developments on our website <https://comp-up.erasmus.site/#> or on the project [Facebook page](#). In case you would like to get directly involved with the project as you see the potential and you could use its outcomes in your work, don't hesitate to contact our partners locally, as we will be delivering events in late 2021 in order to present all the materials which have been developed, where you are more than welcome.

Location:

Firenze, Graz, Almeria, Kristianstad, Miercurea Ciuc, Rzeszów.

How much is this going to cost me?

Thanks to the funding received from the European Commission, under the ERASMUS+ programme, all project deliverables will be available **free of charge** to all interested parties.

What has happened so far?

The consortium had its first two meetings already and the Tool Collection is already finalized. Partners are working on providing the translations for the Tool Collection, as well as are developing the Training Curriculum modules, which will be available by the end of October 2020. Watch out for our news, we'll keep you posted!
